

REMARKS

This amendment is based on amendments to the claims of the International Application under PCT Article 19 and also removes the multiple dependencies. The amendment was not made for reasons related to patentability, and the full range of equivalents for all of the elements of the amended claims, as well as for all of the other claims, should remain intact.

A favorable consideration that results in the allowance of all of the pending claims is earnestly solicited.

Respectfully submitted:

Mark F. Harrington
